

3800Ff

38 mm Dome tweeter, speaker parts

dB Design's extended range high output tweeter is designed to extend useable frequency response down to 800Hz. Fantastic tweeter for 10, 12 or 15-inch 2-way systems. Produces natural sound quality in the midrange and high frequency ranges. The large 38mm (1.5") diameter voice coil allows the tweeter to handle high power and produce high output levels.

3800Ff Off-Axis response: 0 (BLK), 15, 30, 45 (GRN) degrees
