6 1/2" WOOFER

832732

180 WR 33 102 PPB AL 8Ω

High-End woofer from the well-known CC line. The 832732 is an improved version of the popular 831732 and it has got all the qualities which make it one of the best 6 1/2" woofers on the market. The aluminium ring in the magnet system ensures a very low distortion, and the combination of rubber surround, polypropylene cone and phase plug upon the pole piece gives a very smooth frequency response. We recommend this unit for use in smaller bass reflex boxes.
